GAME 3

Collaborate

You have a team, it's important to stick to your roles.

Support your team. Stick with what your team have decided to do.

Going alone, If you have an idea, vote with your team to explore that idea.

You need to build the princess. Break up your process, draw and post to the spaces in your team's slides.

The screenshot tool is best. You do know how to screenshot right?

Explore. There are lots of hidden areas in the worlds.

Scoring. Your teacher will score you and you will get to drop item in the Minecrart.

Teamwork

Books in Minecraft, There are also books in the game. What do they say?

You need to know the order first as a bit of fun. Did you know that you can do a 'reverse image search' in Google?

One you know the order, you know the key. The key is on the train!

Open the world on ONE computer. Then, on the other computer, you can research how things work.

Taming the parrot is a bit if fun, but it shows us that you can research too.

LI & SC

Contributor, I can contribute constructively to project teams

Connector, I connect with learners from a variety of backgrounds and cultures

Collaborator, I can setup and learn within collaborative workspaces and worlds .

Collaborator, I can use collaborative technologies to work with others to create solutions

Global Citizen, I can explore local and global issues and use collaborative technologies.

Extra, Extra!

What is a Structure block? Where can your researcher find this out?
How does the structure block work? How can the researcher find out?

Once the researcher knows - how can they coach your team?
Has your researcher seen... minecraft.gamepedia.com/ ?
Can you export what you build? Where can it be saved?

Team goals.

If you discover the tools in the chest - do you know how to use them?

You have the tools in your hands - do you know where the materials are?

You're not the builder - how do you support your team?
